

RANGE OF GRADATION

Values won't always change from dark entirely to light or vice versa. Depending on the local value of that area or its position with respect to the light source, values may change very little. This exercise will help you to make subtle transitions in value.

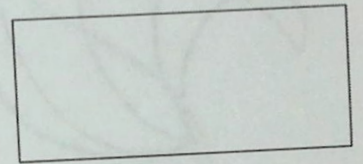

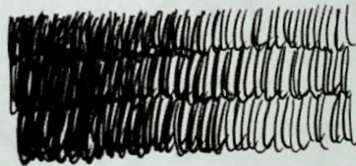

Deep to Deep Value

Hatching						
Cross-hatching						
Uneven Hatching						
Curved Hatching						
Scribbling						
Stippling						
Flowing Lines						

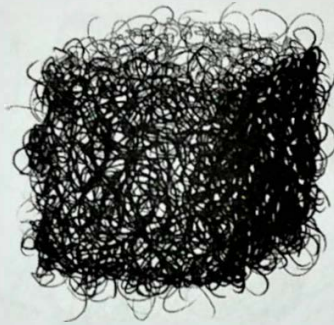

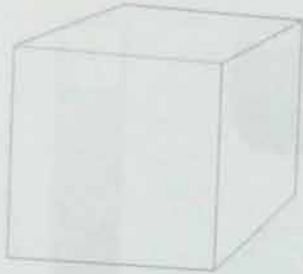

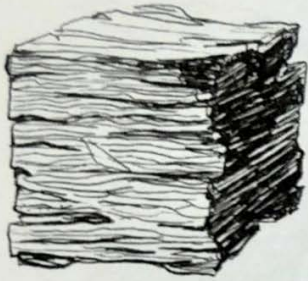

It is better to complete the step-wise value scale first in order to isolate and practice the different value areas. After, having learned the variations you need to make, it will be much easier to apply the blended effect.

**ONLY DO 3 BOXES
(YOUR CHOICE)**
